PRELIMINARY AMENDMENT

Commissioner for Patents
Washington, D.C. 20231

Sir:

Further to the Amendment filed March 20, 2003, and prior to examination, please amend
the above-identified application as follows:

IN THE CLAIMS:

1. (Previously Amended) A plane light source unit comprising:

a light pipe including an upper surface, a lower surface, and an incidence side surface,
and including a light output means formed in said upper surface so that light incident on said
incidence side surface exits from said lower surface through said light output means while light
incident on said lower surface is transmitted through said upper surface; and

a linear light source disposed on said incidence side surface of said light pipe, said linear
light source having an effective light emission region which is longer than a longitudinal length
of said incidence side surface,
